- Weekly “Alma Office Hour”
  - Do you have a question about Alma but don’t know whom to ask?
  - Would you like to talk to someone to clarify how to do something in Alma?
  - Do you want to report a problem but don’t know how?

“Alma Office Hour” continues on Wednesdays at 11 am in room 2511.

This is an informal office hour that does not require registration. Just stop by at your convenience.

- It’s Everywhere! Current Linked Data Activity, UC and Beyond
  **January 16th, 1-2pm, rm 2511**

The UC Libraries Linked Data project team is hosting two webinars to kick off the new year! Join our presenters January 10th to find out more about why we think linked data is so interesting, and on January 16th to learn more about what your UC colleagues are doing with it. These webinars are focused on showing current and near-term applications of linked data and are geared towards a broad audience, so we’ll do our best to avoid unnecessary technical terminology, deep dives into technical details, and complicated infrastructure schematics as much as possible!

Baseline: Using Liaison Competencies to Design Scholarly Communication Boot Camp Training Sessions Presented online via Zoom
At East Carolina University (ECU), the Scholarly Communication Librarian and the Head of Collection Development have been conducting Scholarly Communication Boot Camps for liaison librarians since 2015. These boot camps have covered topics like open educational resources, copyright, author’s rights, data management, and more. ECU’s liaisons are spread across many different departments, and the boot camp allows for continuity of concepts and best practices among librarians with varied primary duties.

Recently, the Head of Research and Instructional Services and the Head of Collection Development reworked the library’s liaison competencies. The revised document delineates concepts and best practices in a format that is not unlike that of formal learning objectives. The new competencies will be used for writing job descriptions for hiring committees, goal setting, training new hires, and more. As a result of this work, we have built new boot camp sessions around these revised competencies. Please join us as we discuss the evolution of liaison competencies at ECU and how they are incorporated into library trainings and every day liaison work.

Cindy Shirkey has been a liaison librarian for 20 years and the head of Collection Development at ECU for three years.

Jeanne Hoover, Scholarly Communication Librarian, has led the Research and Scholarly Communication department at ECU for three years and is heavily involved in the OER movement.

Katy Webb has been head of Research and Instructional Services at ECU for 4 years and has written a book on makerspaces, digital media labs, data visualization labs, knowledge markets, and digital humanities labs entitled Developing Creative Spaces in Academic Libraries: A Decision Maker’s Guide.

The presentation will take place on Wednesday, January 30th, 2019 at 1 pm CST via Zoom. Register here: https://ala-events.zoon.us/webinar/register/YN_CST

**50 Years After the SB Oil Spill - A community event to commemorate the 50th anniversary of the 1969 Santa Barbara Oil Spill**

Get your ticket today to join us on January 27, 2019 at 3PM for a FREE community event to commemorate the 50th anniversary of the 1969 Santa Barbara Oil Spill. This event will look back upon the first 50 years of the modern environmental movement, assess progress to date, and call for renewed engagement and civic action.

EDC, the Community Environmental Council, Get Oil Out (GGOI), and UCSB Environmental Studies Department have organized an afternoon at the Arlington Theater with special guest speakers including Annie Leonard, music by Zach Gill, Glen Phillips, No Simple Highway, SoulMajestic, and more. We’ll tap into the spirit catalyzed by the 1969 Santa Barbara Oil Spill and create a path forward in the face of our current climate and environmental crises. For more information and to reserve your ticket visit [http://santabarbaraoilspill50.com](http://santabarbaraoilspill50.com)

**2-day Software Carpentry Workshop**

The Collaboratory is pleased announce a 2-day Software Carpentry Workshop to be presented Friday and Saturday, January 25-26.

As part of larger data science efforts on campus, the Collaboratory will be hosting a 2-day Software Carpentry Workshop to be presented Friday and Saturday, January 25-26. The Library is thrilled to collaborate with ETS, Center for Scientific Computing, the department of Ecology, Evolution, and Marine Biology, and the Cheadle Center for Biodiversity and Ecological Restoration to help present this workshop.

Software Carpentry aims to help researchers get their work done in less time and with less pain by teaching them basic research computing skills. This hands-on workshop will cover basic concepts and tools, including command line scripting, version control, data management, and task automation with the R statistical programming language. Participants will be encouraged to help one another and to apply what they have learned to their own research problems.

This workshop is targeted at novice users. The only requirement is that you can successfully install and configure ones at the ACRL University Libraries Section (ULS) Midwinter Social on Saturday, January 26th from *5:30 - 7:00 p.m.*

Conveniently located a few blocks from the Washington State Convention Center, “Taphouse Grill”, Upper Lounge (1506 6th Avenue, Seattle 98101) will be the venue for free appetizers and a cash bar! Enjoy great conversations and the opportunity to connect with new colleagues.
software on your own laptop before arriving at the workshop. We welcome all UCSB students, faculty, and staff with an interest in learning today’s research computing tools.

Registration is required and limited to 25. For more information, and a link to the registration form, please see: https://ucsbcarpentry.github.io/2019-01-25-UCSBLibrary/

Event organized by the ULS Membership Committee.

Call for speakers for WGSS program at ALA Annual 2019

The ACRL Women and Gender Studies Section (WGSS) is looking for panelists for our accepted program at ALA Annual 2019 in Washington, D.C. The program is called “Pitfalls of neutrality: What does inclusivity mean in libraries?” It is scheduled for Saturday, June 19, at 9:00 am. Each panelist will have approximately 10-15 minutes to speak. To be considered as a panelist, please submit a brief summary of the issue(s) you would address, including your type of library to Laura Bonella (laurab@ksu.edu) by Monday, January 21.

Program description: Librarians are committed to promoting equity, diversity, and inclusion, but what does this mean in today’s political climate? We are frequently required to make decisions that pit free speech against the comfort and safety of other patrons (e.g. allowing political or hate groups to use our meeting rooms), or called upon to defend our collection, exhibit, or program decisions in the face of patron challenges. Even our decisions about configuring the space in our libraries may create controversy - gender neutral rest rooms, prayer rooms, lactation rooms, or how we make our buildings accessible.

We are looking for a diverse group of speakers who have handled these challenges and can share their experiences and how they dealt with various situations. Attendees will have the chance to ask questions and interact with the speakers and each other. We would like them to leave the program with strategies from different libraries to consider when examining their own perspectives on equity, diversity, and inclusion and how to address these issues in their libraries. The program is co-sponsored by the ALA Office of Intellectual Freedom and will have a panelist from their office.

All the best,
Laura Bonella
2019 WGSS Program Planning chair
